1 INTRODUCTION

1.0 This specification defines the requirements for printing and delivery of WEHOKUKI instant scratch lottery tickets Series 02/2026. The information contained in this specification Includes ticket designs, play symbols, prize structure, game restrictions, numbering, packing instructions, pricing, delivery instructions and authority to proceed with production.

1.1 This series consists of a single game of 3,000,000 tickets using a single display designs. There will be one game on each ticket. In each game players will be required to match three similar money amounts/symbols from six play spots to win that prize.

1.2 The specification has been prepared in accordance with instructions provided by LYDIA LUDIC BURUNDI and the contents will be used by Printcare Secure Limited (PSL) to generate, manufacture and deliver the specified tickets.

2 TICKET

2.0 Design

The game will consist of a single design. The following colours will be used:

Front Display colours:	Cyan, Yellow, Magenta and Black (CYMK)
Overprint colours:	Varnish (Two – One roller coat and one special release coat over all variable data), Silver rub removable ink, colours white and CYMK
Back Colour:	Black
Benday Pattern:	A random pattern of concentric lines will be printed in Cyan and Magenta behind all game play data.
Artwork:	Will be supplied by the client.
Proofs:	Digital proof of front and back as pdf file will be signed and approved by client prior to commencement of manufacture by PSL.

2.1 Technical Specification

Quantity:	3,000,000
Ticket Size:	52 mm wide x 38.1 mm deep (2.05" x 1.5")
Ticket Orientation:	Landscape
Stock:	230 gsm board

Finish:	Tickets are to be perforated for easy tear and fan folded five to view in books of 100.
Variable Data:	All variable data (Play symbols, game / book / ticket number and VIRN) will be printed using inkjet technology. Digital proof of play symbols as pdf file will be sent to the client for approval prior to commencement of manufacture by PSL.

3 GAME SPECIFICATION

3.0 Type

There is a single scratch panel. Player should match three similar money amounts / symbols from six play spots to win the corresponding prize.

3.1 Perfect/Non Perfect Game

The complete games is to be manufactured as a Perfect Game meaning that all generated books (tickets) will be supplied in strict sequential order. This guarantees that the specified prize structure in Section 4 of this specification will be delivered.

3.2 Game Generation

Specially written software will be used to randomly generate and distribute a wide range of game play combinations including "heart stoppers" within the parameters of the game specifications. Standard statistical techniques such as Chi-Square and an independent electronic audit will be used to confirm compliance with all game parameters.

3.3 Play Symbols

Play symbols will use seven different money amounts (5,000,000, 1,000,000, 100,000, 50,000, 10,000, 5,000 and 2,000), Trip to Dubai, Vehicle, Motorcycle, TV, Laptop, bicycle, android phone, rabbit, cloth, simple telephone and radio as play symbols.

3.4 Serial Numbering

Each ticket will contain a unique/consecutive number in the following format GG-BBBBB-TTT where GG represents game number, BBBBB represents the book number TTT represents the ticket number 001 through 100.

Game Number GG	Book Number Start	Book Number End
02	**00001**	**30000**

3.5 Validation

VIRN
Each of the 3,000,000 tickets will be assigned a unique eight digit validation number (VIRN). Format of the VIRN will be defined separately.

Agent Validation

All losing and High Tier tickets will have three randomly selected letters from the following:

R, S, T, U, V, W, X, Y and Z

Low Tier and Mid Tier winners will have two of the above letters selected randomly plus one letter as per the following:

Prize Value FBu	Agent Validation Code
BICYCLE (800,000) IKINGA	A
ANDROID PHONE (600,000) ANDROID	B
CLOTH (120,000) IGETENGE	C
