1 INTRODUCTION

1.0 Specification

This specification defines the requirements for design, generation, printing and delivery of Samurdhi Lotteries (320) Game No 0111 titled "**CASH POWER**".
The information contained in this specification includes ticket designs, play symbols, prize structure, game restrictions, numbering, packing instructions, pricing, delivery instructions and authority to proceed with production.

1.1 Game Mechanism

This lottery will consist of 500,000 tickets, with one game printed on each ticket. In the game, players must scratch the designated area to reveal the symbols. In the game players will be required to scratch and find two similar Symbols and win the corresponding prize.

The specification has been prepared in accordance with instructions provided by National Lotteries Board (NLB) and the contents will be used by Printcare Secure Limited (PSL) to generate, print and deliver the game according to agreed specifications contained herein.

2 TICKET SPECIFICATIONS

2.0 Design Specifications

The game will consist of a single design.

Front Display colours:	Cyan, Yellow, Magenta and Black (CYMK)
Overprint colours:	Varnish (Two – protective coat and one special release coat over all variable data), Silver rub removable ink, overprint colours as per the final approved art.
Back Colour:	Black
Benday Pattern:	A random pattern of concentric lines will be printed in Black behind all game play data.
Artwork:	Game concept art will be supplied by the client. Final art will be prepared and presented to client for approval by PSL.
Proofs:	Digital proof of front and back as pdf file will be sent to the client for approval prior to commencement of manufacture by PSL.

2.1 Technical Specification

Quantity:	500,000 tickets
Ticket Size:	Approx. dimensions: 8.89 (W) × 5.08 (H)
Ticket Design Orientation:	Landscape
Stock:	250-micron board

Finish:	Tickets are to be perforated for easy tear and fan folded five to view in books of 40.
Variable Data:	All variable data (Play symbols, game/ book/ ticket number, agent validation codes and VIRN) will be printed using inkjet technology.

3 GAME SPECIFICATIONS

3.0 Game Play Mechanism

Scratch and find two similar Symbols and win the corresponding prize.

3.1 Game Classification (Perfect or Non-Perfect)

The complete game is to be manufactured as a Perfect Game, meaning that all generated books (tickets) will be supplied in strict sequential order. This guarantees that the specified prize structure in Section 4 of this specification will be delivered.

3.2 Game Generation

Specially written software will be used to randomly generate and distribute a wide range of game play combinations within the parameters of the game specifications.

3.3 Play Symbols

This game will use following symbols.

Category	**Symbols**
Play Symbols	Star, Key, Purse, Crown, Gift Box and Bundle of Money
Prize Amount Symbols	Rs. 50, Rs. 500, Rs. 1,000 and Rs. 5,000

3.4 Serial Numbering

Each ticket will contain a unique/consecutive number in the following format PXXXGGGGTTTTTTT where P represents the Passive/Scratch, XXX represents the Lottery Code, GGGG represents game number, TTTTTTT represents the Serial number 0000001 through 500000.

Passive/ Scratch	Lottery Code	Game Number	Start Serial Number	End Serial Number
1	**320**	**0111**	**0000001**	**0500000**

3.5 Validation

3.5.1 VIRN

Each of the 500,000 tickets will be assigned a unique fifteen-digit validation number (VIRN). Format of the VIRN will be formatted as follows:

PXXXGGGGVVVVVVV where P represents the Passive/Scratch, XXX represents the Lottery Code, GGGG represents game number, VVVVVVV represents the unique VIRN. Each ticket will include a bar code (2 of 5 Interleaved symbology) and one parity will be added in the barcode as 16th digit.

Parity: remainder of the sum of all the digits of the VIRN divided by 10

e.g: virn no - 132000022345678

$$= \frac{(1+3+2+0+0+0+0+2+2+3+4+5+6+7+8)}{10} = 4.3$$

$$Parity = Remainder = 3$$

3.5.2 Agent Validation

Each ticket receives a three-character Agent Validation Code for prize authentication by agents. The code consists of three distinct letters, printed in three randomly selected positions from nine allocated positions in the player scratch area.

Non-winning and High-Tier Winning Tickets	Three distinct letters chosen from: W, S, A, D, Z, R
Low-Tier Winning Tickets	Two distinct letters chosen from: W, S, A, D, Z, R plus one additional letter based on the prize:

Prize	**Agent Code Third Letter**
Rs. 50	T

4 PRIZE STRUCTURE

4.0 Parameters

Ticket price:	Rs. 50
Tickets:	500,000
Revenue:	Rs. 25,000,000
Prize payout:	53.0%
Prize pool:	Rs. 13,250,000
Guaranteed win ratio:	1:4.37

4.1 Prize Structure

Prize Amount (Rs)	Prize System Code	Play Symbol Code	Prize Tier	Number Prizes	Prize Total (Rs)
50	03	dd	Low	100,000	5,000,000
500	07	hh	High	12,500	6,250,000
1,000	08	jj	High	1,790	1,790,000
5,000	11	mm	High	42	210,000
Sub Total				114,332	13,250,000
Non-Win	099			385,668	
Game Total				500,000	**13,250,000**

Net price per book = Rs. 1,225.00

Prize Structure Approval

NLB:		PSL:	

Prepared by	**Checked by**	

4.2 Guaranteed Low End Prize Structure (GLEPS)

The GLEPS prize value for each book of 40 tickets will be:

Prize Amount (Rs)	Number of Prizes	Prize Value per Book (Rs)
50	8	400.00
Total	**8**	**400.00**

Prize Summary

Prize Level	Winners	Total Prize Amount (Rs)
Low	100,000	5,000,000.00
High	14,332	8,250,000.00
Total	**114,332**	**13,250,000.00**

5 GAME RESTRICTIONS AND PLAY REQUIREMENTS

5.0 Restrictions

A slot of 12,000 Tickets (300 books) should contain the following prizes. There will be 41 boxes with this prize allocation.

• Rs. 500 - at least 300 winners

• Rs. 1,000 - at least 43 winner(s)

• Rs. 5,000 - 1 winner

The last box containing 8,000 Tickets (200 books) should have:

• Rs. 500 - at least 200 winners

• Rs. 1,000 - at least 27 winner(s)

• Rs. 5,000 - 1 winner

Each book should contain one prize of Rs. 500.
Each book should not contain more than one prize of Rs. 1,000 and Rs.5,000.
Each book should contain at least one "NON-GLEPS" prize.
No consecutive tickets with same play patterns.
No consecutive tickets with same winning symbols in any rotation.
No logical relationship between play patterns and VIRN.
No more than three consecutive tickets with same prize value.
Any multiples of 5 tickets starting from ticket number 001 in a book should contain at least one winner.

5.1 Play Requirement

Not applicable for this game.

6 SUPPORT MATERIAL

6.0 Samples Tickets

A supply of 1,000 losing tickets with the word "**SAMPLE**" printed on the back will be provided as samples.

6.1 Validation File

For winning ticket verification, an encrypted and password protected dbf file containing all winning VIRNs will be supplied to NLB on CD in the file and record format specified below.
Please note: The data requirement can be varied to meet NLB technical specifications.

High Tier and Low Tier Validation Data File (Data File Type: Dbase III &.dbf Format)

Record Layout:

Field Name	Width (Max)	Decimal	Field Type	Sample: - Data, Values & Description	
BARCODE	15	0	Character	Type	1 Format (9)
				Lottery Code	320 (Format - 999)
				Game No	0111 (Format - 9999)
				VIRN No	VIRN No – Unique seven-digit random validation number.
PCODE	2	0	Numeric	Prize Code	Either 03, 07, 08 or 11
PAMOUNT	18	2	Numeric	Amount	Either Rs. 50, Rs. 500, Rs. 1,000 or Rs. 5,000
DESCRIPTION	60	0	Character	Prize Description	Either Fifty Rupees, Five Hundred Rupees, One Thousand Rupees or Five Thousand Rupees
TYPE	1		Numeric	Type	1 = Low Tier, 2 = High Tier,
WINNUMBERS	100		Character	Winning Numbers	Eg: “Star”, “Star”

If a complete reconstruction of a ticket is required, this service will be provided by PSL. Any request for ticket reconstruction must be directed in writing to General Manager PSL by an authorised officer of NLB.

6.2 Audit Report

An independent electronic audit will be conducted and a report issued. This report will confirm the correctness of the game/data used to print the tickets.

7 PACKAGING

7.0 Books

Each book will contain 40 tickets; books will be shrink wrapped with clear film and labelled according to NLB instructions. The book label will include a bar code (2 of 5 Interleaved symbology), and one parity will be added in the barcode as 16th digit. The barcode can be used by NLB for inventory and distribution control.

7.1 Cartons

First 41 cartons will contain 12,000 tickets (300 books) and the last carton contains 8,000 tickets (200 books).
Cartons will be sealed with PSL tape, strap sealed twice and labelled according to NLB instructions.
Please note: Since there will be no missing books there will be no need for carton content to be printed on label other than start and end book number.

7.2 Packing Manifest

A computer-generated manifest of all carton contents will be generated and sent to NLB at the same time as the tickets are delivered. Carton content will be varied in accordance with NLB requirements.

8 SCHEDULE and DELIVERABLES

8.0 Proposed Schedule

The following has been provided to illustrate a possible indicative manufacturing schedule and despatch scenario. The start date is dependent on approval of this Game Specification, supply of finished artwork in layered Illustrator file format.

Activity	Target Date
Finalise and Authorise Game Specification	
Supply Artwork (PSL to complete some revision)	
Approve Artwork (Colours)	
Receipt and Acceptance of PO	
Approval of Digital Proof	
Production Start Deadline	
Data Generation and Internal Audit	
Independent Audit	
Commence Printing	
Commence Packing	
Commence Despatch Tickets	
Despatch VIRN Data	

The production and delivery schedule will depend on the supply and approval of art and game specification.

9 DELIVERY

9.0 Local Delivery

Pallets of completed tickets will be delivered from PSL facility at Kelaniya using own secured vehicle and personnel.

9.1 Delivery Address

National Lotteries Board
No.32,
Deshamanya N.W.J. Mudalige Mawatha,
Colombo 01.
